Appreciation Programme

**Tool for Social Accountability
(in association with World Bank)**

Guidelines to the Course

Course Summary

This programme emphasizes social accountability as a necessary approach to ensuring that government agencies and officials are accountable to the citizens in performance of their responsibilities. Various approaches, methods and tools of social accountability have been highlighted to monitor budgets, performance and expenditures of various public bodies. The course demonstrates an understanding of the practice of tools of social accountability with a focus on target budgets, expenditures and performance benchmarks of government agencies responsible for delivery of basic services to the poor and the marginalized.

Moodle

Our courses are based on the principles of Open and Distance Education (ODL), as well as, the philosophy of Adult Learning.

The ODL approach ensures that the materials are designed so as to support autonomous and self-directed learning. Self-directed learning focuses on the process by which adults take control of their learning. They set up their learning goals; look for appropriate resources; decide on their learning styles and evaluate their progress, with support from the instructor/facilitator.

Keeping in mind the philosophy of adult education and that each of you learners are adults; the materials are intended to relate to each learner's experience. These prior experiences are considered as an excellent knowledge as learning is best when presented in a real life context. Further, adults have high motivation to learn when they perceive that the new knowledge they gain can help them gain clarity in resolving some of the challenges they face in their daily lives.

All courses at the PRIA Academy are conducted through the Moodle, which is a web-based platform, used by premier educational institutions across the world. This virtual platform is used to maximize interaction between the instructors and the learners. We at the Academy have a strong faculty of practitioners and academicians, who facilitate our courses, as well as international guest faculty who bring in their expertise and enrich learning and discussions.
